

FLW- 1500 MT

MANUAL TORCH
HANDY FIBER LASER
WELDER

Handy Fiber Laser Welder "FLW-1500MT" uses an oscillator with 1500W rated power.

The combination of :-

- High power oscillator.
- Latest wobbling feature.
- The uniqueness of smooth Fiber Laser welding.
- Deep penetration with minimal distortion.
- Enables processing of various parts with a range of auxiliary equipment.

We will bring you the knowledge of welding technologies, learn and identify how our Fiber Laser Welding Technology can improve your productions.
