# The 36th Precision Sheet Metal Technology Fair

## Greetings

The Precision Sheet Metal Technology Fair has been held annually since 1989, and this year will mark the 36th. Entries are not limited to Japan, but have now expanded globally to include entries from 17 countries. We would like to thank all for your deep support and understanding of the purpose of this skills fair. We are pleased to present you with the application guidelines for the 36th Precision Sheet Metal Technology Fair. We sincerely hope that you will take this opportunity to infuse your daily processing techniques and skills into your works, and we look forward to seeing many of your creations on display.

Yukihiko Fukui, Chairman  
AMADA SCHOOL OF VOCATIONAL TRAINING CORPORATION

## Awarded works from the 35th Fair

The award of Minister of Health, Labour & Welfare is to be given to the components with high technical skill.

Minister of Health, Labour and Welfare Award

**MATSUDA CO., LTD.**  
THE EARTH

Shizuoka, Japan

The award of Minister of Economy, Trade & Industry is to be given to the components with improvement of production process.

Minister of Economy, Trade and Industry Award

**Saijo Inx Co., Ltd.**  
Slit fins ~Free heat transfer fins~

Kyoto, Japan

Overseas Best Award

India

**ANTARCTICA EQUIPMENTS PVT. LTD.**  
AE-LOCOMOTIVE ENGINE

Welding fabrication Grand Prize

India

**R P Products Pharma Equipments Pvt. Ltd.**  
S · S · SPIRAL ART STRUCTURE

Sheet metal assemble parts AMADA Award

Italy

**LA DUE ESSE s.r.l.**  
COFFEE MACHINE

Sheet metal assemble parts AMADA Award

France

**Lycée des Métiers Gustave EIFFEL**  
JEANNE

Formative arts fabrication AMADA Award

Vietnam

**VIETNAM JAPAN INDUSTRIAL DEVELOPMENT AND MANUFACTURING JOINT STOCK COMPANY (INDEMA J.S.C)**  
One Pillar Pagoda

# Guidelines for application

## Eligibility Requirements:

### ■ Company

As a general rule, the entry product is to be made by a company engaged in precision sheet metal / sheetmetal working business, and uses sheet metal working / machines, in domestic and overseas.

### ■ Students

Students who are studying metal processing at high school, technical college, university or vocational school are applicable to "student fabrication".

Products created by teachers, professors or trainers will be exhibited outside of the "Students' fabrication" section.

## When & Where:

1.The entries are accepted from

**May through October 2023.**

2.The entries should be handed to an AMADA employee or sent to the local AMADA office.

## How to Enter:

You can enter directly to entry form.

<https://www.amada.co.jp/fair/eng/info/>

Please print the entry form filled in, and send it along with the product. And you can download an entry form from website. Please visit the website to fill in more detail.

The following questions have high score points at selection process: **"the process you would like to appeal" and "illustrated explanation of fabricating know-how"**. Please fill them out in detail, with accuracy.

\*In case of welding fabrication, please attach photos before finishing.

## Terms for Application

1.The product must symbolize today's sheet metal fabricating technology, and must have been processed by sheet metal working machines.

2.The applicants are responsible for verifying with your client if you can display the product.

3.If you wish to exhibit the product under the copyrighted material of a third party (character, etc.), patent rights, design rights, trademark rights or other intellectual property rights, you must attach the certification of receiving proper license, consent from the right holder with the product.

4.Please do not mark the part with a company logo.

5.Exhibition category:

The fair applies following 5 categories .  
Refer to the samples below.

**1) Sheet metal parts(Single sheet fabrication)**

**2) Sheet metal assemble parts (Assembly of parts)**

**3) Welding fabrication (Welding technology & skills)**

**4) Formative arts fabrication (Idea and impression of formative arts)**

### Category Example

1) Sheet metal parts  
(Single sheet fabrication)

2) Sheet metal assemble parts  
(Assembly of parts)

3) Welding fabrication  
(Welding technology & skills)

4) Formative arts fabrication  
(Idea and impression of formative arts)

\*The Judging Committee may change the above categories.

### 5) Students' fabrication

Products made by student who are studying about metal processing at high school, technical college, university or vocational school.

6.Work piece size should be within **1,500mm in the total outside dimensions (length+width+height) and must not exceed 600mm in each dimension.**

Please contact the Precision Sheet Metal Technology Fair office if your work exceeds this size limit. Points may be deducted if your part is very large.

7.Basically, the entered product will **not be returned**.  
If you wish the part to be returned, please contact us.

8.The entries will be on display at Amada Global Innovation Center in Japan from November 2023 through October 2024.

\*The entries might be displayed in a private show or public show if the applicant accepts it.

**\*Others: By entering any part in this competition, the applicants agree to be bound by all conditions of this Fair.**

# Selection Process

---

1. All entries will be judged according to the criteria as below for each category:

- 1) Does the entry provide hints or ideas for fabricating technologies/ fabricating know-how?
- 2) Does the entry use advanced or new technology based on today's sheet metal fabricating technology?
- 3) High quality and high precision work-pieces utilized by advanced and experienced skills and methods.

2. The entries will be judged in two phases:

1) Initial Selection

All entries will be exhibited at the Amada Global Innovation Center from November 2023 through January 2024, to be voted online and by visitors to Amada.

2) Second Selection

The nominated entries from the initial selection (one product per category for each company) will be evaluated by the Judging Committee which is composed of academic experts and sponsors. Each award winner will be determined based on the number of votes acquired.

## Announcement of Winners

---

The winners of each award will be announced at a ceremony in March 2024.

## Award

---

### 《Awards Judged beyond Exhibition Category》

- Minister of Health, Labour and Welfare Award
- Minister of Economy, Trade & Industry Award
- Kanagawa Prefectural Governor's Award
- Japan Vocational Ability Development Association Chairman's Award
- The Nikkan Kogyo Shimbun Award
- The Japan Society for Technology of Plasticity President's Award
- Overseas Best Award ● Judging Committee's Special Award
- Amada Award ● Special Award etc.

### 《Awards Judged by Category》

- Grand Prize
- Technical Award

### Privacy policy

---

#### 1. For the purpose of using personal information

Personal information of applicants to the Fair may be used only for Fair purposes, including placement in printed materials on sponsorship, website posting, announcement of competition results or public relations activities deemed necessary to perform the Fair. The same applies to award-winning pieces of work. This should be agreed to by applicants in advance.

#### 2. For information of submissions / applying organization

All the information will be widely published in web sites, newspapers, magazines and lectures of seminar, etc.

#### 3. Disclosure of information to third parties

Personal information on applicants is to be used for the above purposes and will not be disclosed to any third party without permission except as may be required by law.
