

PRODUCT DESCRIPTION

Supportive & embracing in terms of innovations, skills development with technology.

The conversion of Die Casting part into a sheetmetal part, in terms of innovation for saving time, cost and secondary process.

PRODUCT COMPARISON				
				
		DIE CASTING (REFERENCE)		SHEET METAL
1	Process Time	Long lead time (Mold)		Short lead time (Laser)
2	Fabrication	Complicated & require more time		Easier & with minimal time
3	Price value	Expensive		cheaper
4	Weight	Moderate / heavy to carry		Light weight (Used thin material thickness)
5	Maintenance	Moderate		Easier
6	Assembly part	Estimated of 5 parts		7 Parts
7	Surface Finished	Plating/ Painting		Painting
